UPCOMING UX LIA • ANTURA AB • NOV 2026–APR 2027

UX design student graduating in 2027, with a background in psychology, sociology and caregiving. I combine an understanding of human behaviour with user research, usability testing and interaction design to create clear, accessible and intuitive digital experiences.

SELECTED UX PROJECTS

Payap — Improving reporting discoverability

UX Designer • Student project with Payap • 2026

- **CHALLENGE** Managers needed a clearer overview of employee activities and reporting.
- **MY WORK** Designed three desktop views in Figma: employee overview, reporting and history.
- **EVIDENCE** Usability testing showed that the reporting action was easy to miss. I adjusted its placement and visibility.

Parkster — Designing around users' mental models

UX Designer / Researcher • Group project • 2026

- **CHALLENGE** Visitors struggled to park when they did not know local zone codes.
- **MY WORK** Analysed card-sorting findings and developed an individual search-first journey and information architecture concept.
- **EVIDENCE** Research insights guided the navigation. The individual concept remains exploratory.

Mobill — Making parking information clearer

UX Designer / Researcher • Student project • 2026

- **CHALLENGE** First-time users needed clearer pricing, confirmation and active-parking status.
- **MY WORK** Designed and iterated Figma prototypes with WCAG-informed accessibility considerations.
- **EVIDENCE** Team usability testing and review analysis informed decisions about pricing and parking feedback.

ADDITIONAL LEARNING

Pink Programming • Coding with AI Camp • 2026
Python, prompt engineering and AI-assisted problem solving.

SKILLS

Research & testing

User interviews, review analysis, competitor analysis, card sorting, usability testing, research synthesis.

Design & accessibility

Information architecture, interaction design, wireframing, prototyping, WCAG-informed accessibility.

Languages

Japanese — Native

English — Professional

Swedish — Professional working proficiency
